

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

GENERAL TELEPHONE COMPANY OF
KENTUCKY

COMPLAINANT

vs.

SOUTH CENTRAL BELL TELEPHONE
COMPANY

DEFENDANT

CASE NO. 8727

O R D E R

IT IS ORDERED that General Telephone Company of Kentucky ("General") and/or South Central Bell Telephone Company ("Bell"), when applicable, shall file an original and 12 copies of the following information with the Commission by February 1, 1983. Each response should include the name of the person who will be responsible for cross-examination of the information provided.

1. Provide the Commission with the status of this or similar complaints, both past and present, in all other jurisdictions.

2. When did General first become aware that Bell could provide toll based separation of toll revenue on intra-state toll properties only? When did General first approach Bell about changing the toll revenue settlements methodology?

How did Bell respond? In summary, detail the efforts made to negotiate changes.

3. Assuming General's proposed method of settlements has been in effect for the calendar year ending December 31, 1982, what will be the resulting incremental difference in amount, rate of return and return on equity? This should be completed both assuming General is the only company to change and that all other eligible telephone companies participate. In the second case, show the amount of change by individual company. In addition, provide workpapers in support of these calculations.

Done at Frankfort, Kentucky, this 20th day of January, 1983.
